

## Assignment # 2. Numeral Classifier systems

Due date: January 28, 2023

- 1) Understand and describe the meanings of the following terms: **lexical suffix**, **class** and **classifier**.
- 2) Be able to identify the various suffixes in the examples and chart, and know their meanings. e.g. the suffix **-ulhp** indicates a plant or tree.
- 3) Send me a summary paragraph (call it Paragraph A) and include a vocabulary list of the 3 terms in item 1) above, and the suffix terms and their meaning in 2) above.
- 4) Explore the **ta'ulthun sqwal** site and review the topics covered in class by listening to the sound files and practicing them orally. I have provided the path below to take you there.

<https://sqwal.hwulmuhwqun.ca/learn/kwshem-math-lessons/>

Click on a topic and go through the activities.

Topics: Days of the week, Counting by Tens and Counting Money, Complex Numbers, Counting People.

- 5) Send me a summary paragraph (call it Paragraph B) and describe the topics in the counting section in ta'ulthun sqwal that you were able to work through, and any comments on your progress. This is about your experience and what you notice. There are no right or wrong answers here - it is about defining your feelings about what you are working through that is valuable. Not everyone will have worked through the same ones. If you work with someone, that is just fine.

hay ch q'u to each and every one of you for all the good work you do, and will continue to do, nu sii'em' nu siiye'yu.

hay tseep q'u.
